

## Faint?

Have you weak heart, dizzy feelings, oppressed breathing after meals? Or do you experience pain over the heart, shortness of breath on going up-stairs and the many distressing symptoms which indicate poor circulation and bad blood? A heart tonic, blood and body-builder that has stood the test of over 40 years of cures is

### Dr. Pierce's Golden Medical Discovery

The heart becomes regular as clock-work. The red blood corpuscles are increased in number—and the nerves in turn are well fed. The arteries are filled with good rich blood. That is why nervous debility, irritability, fainting spells, disappear and are overcome by this alternative extract of medicinal roots put up by Dr. Pierce without the use of alcohol. Ask your neighbor. Many have been cured of

scrofulous conditions, ulcers, "fever-sores," white swellings, etc., by taking Dr. Pierce's Discovery. Just the refreshing and vitalizing tonic needed for excessive tissue waste, in convalescence from fevers or for run-down, anemic, thin-blooded people. Stick to this safe and sure remedy and refuse all "just as good" kinds offered by the dealer who is looking for a larger profit. Nothing will do you half as much good as Dr. Pierce's Golden Medical Discovery.

Kemper cadets met the cadets of Wentworth military school on the Kemper field Tuesday afternoon in a game of ball, and were badly whalloped. The game was started off with Wentworth at the bat. They failed to make a score. Kemper then went to the bat and made three runs. It is all they ever made. They were too sanguine, and by errors, bad throwing and poor catching let the visitors make three runs in one inning, four in another and one in another, making them eight runs to Kemper's three. The game closed that way. Ordinarily both teams are fairly good but were not at their best in this game. The feature of the game was a home run knocked by one of the visiting team.—Boonville Advertiser.

#### What Texans Admire

is hearty, vigorous life, according to Hugh Tallman, of San Antonio. "We find," he writes, "that Dr. King's New Life Pills surely put new life and energy into a person. Wife and I believe they are the best made." Excellent for stomach, liver or kidney troubles. 25 cents at Crenshaw & Young.

E. M. Taubman went to Kansas City Saturday on business.

Miss Maria Wood went to Kansas City Saturday to visit relatives.

#### Puts End to Bad Habit.

Things never look bright to one with "the blues." Ten to one the trouble is a sluggish liver, filling the system with bilious poison, that Dr. King's New Life Pills would expel. Try them. Let the joy of better feelings end "the blues." Best for stomach, liver and kidneys. 25 cents at Crenshaw & Young.

Dr. A. E. Rogers went to Bunceton Saturday on business.

H. F. Blackwell went to Kansas City Friday on legal business.

#### Bargain in R. C. Reds.

18 yearling hens and 3 cocks. Extra good stock.

E. F. MEYER.  
235 N. 16th street.

#### "LOOK."

I will sell eggs from my prize winning Partridge Wyandottes at one half the regular price the balance of this season. These birds have won "Two State Silver Cups," sweep stakes in several leading shows and blue ribbons galore. It is an opportunity you may never have again to obtain eggs from this great breed at such a reduced price. Ask for mating list.

VINCE E. OWEN.

Eczema, Salt Rheum, Pimples, Ringworm, Itch, Acne or other skin troubles can be promptly cured by

### O-ZO-NOL

STOPS ITCHING INSTANTLY. Cooling, Soothing and the Greatest Healing Ointment Ever Applied to an Inflamed Surface.

PRICES 25 & 50 CENTS  
SOLD BY ALL DRUGGISTS

#### Missouri Fruit Prospects.

Reports from special correspondents from every county of the state to the Board of Horticulture show that throughout the state the prospects at this time are good for large crops of apples, cherries, pears, plums and strawberries. Grapes and bush fruits have been injured somewhat by the severe winter and do not promise as well. Peaches are an entire failure throughout the state, except in one or two small regions, and these show only a partial crop. At the time of receiving reports, fruits were either in bloom or setting the buds so that much still depends upon how well the fruit sets. In detail, conditions average about as follows.

North West Missouri—Apples vary from 50 per cent to full bloom with an average of 97 per cent. Cherries, pears and plums all promise well with average for each of 95 per cent. Grapes, through winter injury, drop to 86 per cent. Blackberries, 38 per cent; Raspberries, 65 per cent, while gooseberries and currants show 80 to 85 per cent.

North East Missouri—Apples show a falling off in this section, being only 87 per cent of a full bloom. Pears, plums and cherries promise a full crop. Grapes show much more winter injury, the estimate being 65 per cent. Blackberries are 50 per cent; raspberries, 60-65 per cent, while gooseberries and currants range from 80 to 90 per cent.

Central Missouri—Apples are reported at an average of 90 per cent; cherries, pears, and plums, at 90, 95, and 98 per cent, respectively. Grapes are placed at 80 per cent. Blackberries and raspberries appear to have been more seriously injured here than in the more northern part of the state, blackberries being placed at 25 per cent, while currants are 80 per cent.

South West Missouri—This section shows well in tree fruits, apples being 100 per cent; cherries, 90 per cent; pears, 98 per cent and plums, 90 per cent. This is the only section from which correspondents report peach bloom of any consequence. In a very small area there will be a partial crop. Grapes are placed at 80 per cent. Blackberries and raspberries appear to have received the worst injury in this section, being 30 and 25 per cent, respectively. Gooseberries and currants average 80 to 85 per cent each.

South East Missouri—Apples show 95 per cent; cherries, 80 per cent; pears, 70 per cent; plums, 82 per cent; grapes, 90 per cent; blackberries, 52 per cent; raspberries, 50 per cent; gooseberries, 84 per cent; currants, 80 per cent.

W. W. CHENOWETH,  
Secretary.

Miss Margaret Aull spent Saturday in Kansas City.

We invite the Ladies to visit our Green House, and examine the fine assortment of cut flowers and blooming plants. We can supply your wants in anything in our line.

#### FULLER'S EARTH IN 1911.

### Greatest Production and Consumption in History of the Industry.

Fuller's earth, the claylike material that is used principally as a filtering medium for oils, fats, and greases, is found in 15 States as shown by a report of the United States Geological Survey on the "Production of Fuller's Earth in 1911," now going through the press. In 1911 fuller's earth was produced in but seven States, Arkansas, California, Florida, Georgia, Massachusetts, South Carolina, and Texas, and there were no unusual developments in the industry. New deposits are reported from time to time, but in many the high standard of efficiency required is not found and only a few of the deposits are worked. Of the large number of known deposits but 13 were worked in 1911. Some of the causes for the small number of workings, in addition to the high standard of quality required, are inaccessibility of the deposits and lack of capital.

Notwithstanding the comparatively small number of producers, the output has almost steadily increased from the small beginning in 1895, when but 6,900 short tons were reported, valued at \$41,400, or \$6 a ton, to 1911, when 40,697 tons were reported, valued at \$383,124, or \$9.41 a ton. The prospects for 1912, the report states, appear to be bright and the production for this year will probably exceed that of 1911. A number of deposits which were being exploited in 1911 will be producers in 1912.

The production for 1911 was 7,875 short tons, or 24 per cent greater than the output of 1910, and it was valued at \$89,415, an increase of 30 per cent. This is 21 per cent greater than the production and 27 per cent greater than the value reported for 1909—the maximum output and value until 1911. The highest average price per ton—\$9.41—was also attained in 1911; the lowest—\$5.72—was in 1904.

The imports of fuller's earth were also the largest ever recorded both in quantity (18,224 short tons) and in value (\$143,594), so that the consumption of fuller's earth was 58,921 short tons, valued at \$526,718. Of this the domestic production represented 69 per cent of the quantity and 73 per cent of the value.

Florida continues to be the leading State. In 1911 it reported 27,658 tons, valued at \$265,571, or \$9.60 a ton. This was 68 per cent of the quantity and 69 per cent of the value of the entire output and value. The other States in the order of their rank in output and value in 1911 were Georgia, Arkansas, Texas, Massachusetts, California and South Carolina. The average price per ton in these States was: Georgia, \$9.04; Arkansas, \$10; Texas, \$9.66; Massachusetts, \$5; California \$10.30; and South Carolina, \$7.

A copy of the report may be obtained free on application to the Director of the Geological Survey, Washington, D. C.

Mr. and Mrs. F. L. Carter went to Higginsville Saturday to spend Sunday with friends.

#### SHERWIN & WILLIAMS

Paints.  
W. F. Weis.

#### Helps a Judge in Bad Fix.

Justice Eli Cherry, of Gillis Mills, Tenn., was plainly worried. A bad sore on his leg had baffled several doctors and long resisted all remedies. "I thought it was a cancer," he wrote. "At last I used Bucklen's Arnica Salve, and was completely cured." Cures burns, boils, ulcers, cuts, bruises and piles. 25 cents at Crenshaw & Young.

#### To the Democrats of Lafayette County:

There is a nation-wide sentiment against favor-seeking interests financing political campaigns, and the most wholesome way to throttle that insidious encroachment upon the rights of those who want justice substituted for favoritism in the affairs of government, is for the individual citizen to realize that a responsibility rests upon him to contribute financially for the furtherance of those political ideas that are consonant with his own views of justice in government affairs.

The frank and positive refusal of Missouri's candidate for president, Hon. Champ Clark, to accept campaign donations from questionable sources, brings the question of the people financing campaigns squarely up to those who are demanding justice as between organized monopoly on one hand and the every-day citizen on the other.

It is perfectly clear to all sensible men that no campaign, national in its scope, can be conducted without the legitimate expenditure of quite a lot of money. If we want a president of and for the common people, we, the plain, every-day citizens must contribute modestly to see that the candidate who most nearly represents our ideas is given a fair, square opportunity to win upon the issues and his merits.

The attitude of Speaker Clark should appeal to honest men of every political faith, and his positive enunciation of such a principle should quicken the conscience and loosen the purse strings of every honest reformer in Lafayette county. As chairman and secretary of the Lafayette County Democratic Committee, we have decided to inaugurate an opportunity for Lafayette county people to contribute to the Clark Campaign Fund, and accordingly have mailed subscription blanks out to the various voting precincts. We especially urge all those interested not to wait for the paper to be presented to them, but to inquire about the subscription and make their contributions early. Sums from 50 cents up will be accepted and if remitted to H. C. Chiles, Lexington, Missouri, will be forwarded to the St. Louis Republic where the list of contributors will be published and a receipt forwarded to each donor.

Attend to this at once and thereby manifest more than a passing interest in the efforts of democracy to again bring the people into possession of their own.

B. C. DRUMMOND,  
Chairman.

#### A Great Daily Newspaper at Half-Price.

The Kansas City Daily and Sunday Journal, Kansas City, Mo., is making a great reduction in its subscription price for the National Campaign Year. Any persons sending \$2.00 can have his name placed on the list for the Daily and Sunday Journal for a whole year. This is a one-half rate from the regular subscription price, which is \$4.00 per year. Persons who desire to follow the campaign and keep thoroughly informed on the progress of events can do so by sending \$2.00 and receive The Kansas City Daily and Sunday Journal for a full year. This is the greatest offer ever made by The Journal on the eve of a Great National Campaign. Do not fail to accept this great benefit by sending \$2.00 and take advantage of this one-half rate to secure the great Daily and Sunday Journal for a whole year. The offer will not be good after March 15, 1912, and those desiring the great Daily and Sunday Journal at half-price should send at once. Address

The Kansas City Journal.

## COMMON SENSE SILO

(Covered by Letters Patent)

If  
You  
Are  
Interested  
In  
Silos—

Do  
Not  
Fail  
To  
See  
Us

### We Have A New Idea That Builds A

Perfect Ensilage Preserver at the Least Cost of Construction and the Most Substantial Wood Building that can be Erected

The farmer knows that the silo utilizes all the feed value of farm crops and makes feeding a matter of two hours light work instead of a day of drudgery hauling feed.

One acre good corn equals 10 tons silage.  
Ten tons silage feeds three head cattle 6 months.  
One acre in silo is worth about 3 in the crib.  
One ton silage occupies 50 cu. ft.  
One ton hay occupies 500 cu. ft.  
It will be seen that ten times more space is required for hay than silage and it is not possible to construct even a cheap hay shed, to say nothing of a barn, for the price required to store the same quantity of silage.

The question is what kind of a silo to build. We recommend the Common Sense method of silo construction because:

It is within the means of the smallest feeder, as the height is not fixed and it can be added to from year to year as the herd increases.  
The walls are substantial and can not collapse.  
No hoops to tighten.  
No braces necessary.  
Will not shrink or buckle.  
It is so simple to construct that anyone can build it.  
No door expense. Doors are cut out of the solid section of wall and beveled, making them practical, simple and air tight.  
This silo is built with 6, 7, 8, 9 or 10 sides and is made of 2x4's—6 ft. laid like brick flatwise, and lined with acid-proof prepared roofing, making it absolutely air tight.

Come in and Investigate. Secure License to build

**THE LAMBERT LUMBER CO.**

## Hello, Farmers and Breeders

I wish to call your attention to the Winton Hill Stock and Breeding Farm and invite you to call and see my Breeding Stock for the season of 1912. I have two fine Horses and two of the best Jacks in the County. Prompt service and a square deal—no waiting for a day or two.

**Bon Cru 41419** The great Percheron Draft Stallion imported from France by Chas. R. Kirk of Charlton, Iowa. Bon Cru is seven years old and has proven himself a great breeder.

Bon Cru will stand at \$10.00. Breeding certificate may be seen at barn.

**Denmark Henry.** A saddle stallion, coming three years old, dark Bay, 16 hands high and as fine a colt as you ever saw. Goes all the gaits and is certainly going to make a great saddle horse, and will also be large and heavy enough to make an all purpose horse.

Denmark Henry will stand at \$10.00.

**Judge Bradley** Is an extra good Jack four years old, stands 15½ hands high standard, is black with white points, large head and ears and extra good, large flat bone. You may look the country over and can not beat Judge Bradley.

**Joe Irvine** Is a fine big long rangy black Jack, with white points. Is 16 hands high standard and as smooth as a fine peach. Has large head and ears and extra heavy bone. Joe Irvine is five years old and will stand at \$12.50.

I will be prepared to use Capsule System of Breeding this season, which has no doubt proved to be the greatest success to get barren mares to breed. Bring your mares, no matter how often you have tried them and failed to get results. Let me help you made your breeding business a success.

All of the above stock will stand at my Winton Hill Stock and Breeding farm at the following terms: I will insure a living colt with the above stock where the mare is not sold or traded out of the neighborhood, but if sold or traded the service will be payable at once and will positively be collected. A lien will be received on mare or colt for service fee until service money is paid. Great care will be taken to prevent accidents but will not be responsible should any occur. Will keep mares on pasture and try them regularly at a reasonable price.
